

“The average attention span of humans is **8 seconds.**” – *1 second less than goldfish*

“In a single day we are exposed to **300+ advertisements.**” – *And remember less than 12 of them*

With all the distractions of today's world, getting your message in front of potential customers **once or twice isn't enough.**

Through **marketing automation** and **remarketing**, you can follow prospective customers around for months and send them a variety of communications without adding a second of your own time. Contact our team of experts today and start running your first re-engagement campaign in **a week or less!**

Sincerely,  
Ryan Forrest  
(A Fun Guy)
